

## what to submit instruction

There are 3 materials to be submitted.

Here, 2 materials to be submit by e-mail will be explained.

(“Actual Forecast data” will be submitted over the contest website. Detail information about “Actual Forecast data” will be announced separately when API Set Up Period begins.)

**年間予測結果**

Annual Forecast data

**本番予測結果**

Actual Forecast data

**手法説明レポート**

Report explaining  
the method

## Annual Forecast data

Participants are to submit CSV file which include hourly forecast data of load for electric power over a Forecasting Time Period of 365 days.

Forecasting Time Period: January 1, 2015 0:00 until December 31, 2015 23:00 (in one hour intervals)

The CSV file must follow the guidelines below. One of the attached files, "[Sample]XXX\_predict.csv" shows you how your file should look.

### <Guidelines>

- The title of the file must be "**XXX\_predict.csv**". "XXX" should be the Receipt number which you have been given when you entered the contest.
- It must contain ( $365 \times 24 = 8760$ ) points of predicting data.

Do not label the first column.

(Example)

2015/1/1,0:00,1234

2015/1/1,1:00,1234

## Report explaining the method

Please prepare the material which explains your method as reference and submit it in pdf file form. Make sure you include the items in the report.

### <Required item>

- Overview of program and method
- Program language and operating environment used in the method
- All data used

### <Other desirable items>

- Discussion (Reasons for days when prediction results were not good)
- Calculation time
- Library used
- References used

pdf file must follow the guidelines below.

### <Guidelines>

- The title of the file must be “**XXX\_report.pdf**”. “XXX” should be a Receipt number which you’ve given when you enter the contest.
- There are no restrictions in the number of pages, but please make it explainable within 5 minutes.
- File size should be 10MB or less.

## how to submit

Submission deadline: September 9, 2017 8:00 JST

How to submit: Email to the specified address( [contest@lib-ag.co.jp](mailto:contest@lib-ag.co.jp) )

Important notes: The subject title of your mail must be "XXX Submission for Electricity Load Forecasting Technology Contest". Please also include "Name" and " Receipt number" in your text.  
"XXX" should be the Receipt number which you have been given when you entered the contest.

NEW MESSAGE

to : [contest@lib-ag.co.jp](mailto:contest@lib-ag.co.jp)

subject : XXX Submission for Electricity Load Forecasting Technology Contest
